Guest Seminar

The Future of Biomedical Industry in China and US

by

Dr. Eddy WU
Head of Terns China Biotechnology Co Ltd

Date : 3 Apr 2019 (Wednesday)
Time : 1:30pm
Venue : LT-H (Lifts 27-28)

Abstract
In this talk, Dr. Wu will share with the audience some thought-provoking findings in his post-HKUST career life, as well as his first-hand observations on the global biotech industry development with a focus on the compare and contrast among biotech in China, US and the rest of the world. He will also share ideas on future trends of biomedical industry and future competitors fresh-graduates will be facing when they setting out for their career life.

Biography:
Eddy (Hoi Ti) Wu, PhD is the Head of Terns China Biotechnology Co., Ltd. where he is responsible for directing and overseeing all aspects of R&D activities as well as general management responsibilities. Previously, Dr. Wu was the Executive Medical Director at Allergan China, and, before Allergan, he worked as the Regional Medical Director at Novartis' Switzerland headquarter. During his tenure at Novartis, Dr. Wu was based in Basel, Hong Kong, and Taiwan and held various positions with increasing responsibilities. He led multiple clinical development programs and gained in first-hand global experience across multiple therapeutic areas. Also at Novartis, Dr. Wu served as the Head of Health Economics & Outcome Research for the Asian, Middle East, and African markets.

Dr. Wu graduated with a bachelor’s degree and First-Class Honors in Biochemistry from the Hong Kong University of Science and Technology (HKUST), where he also obtained his Ph.D. in Biochemistry.

All are welcome!
